Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 18 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry and initially sunny, then clouding over.

Today:
After a sunny start, cloud will gradually move in from the south. Cloudy for most during the afternoon, but some sunny spells still possible, more so in the north. Staying dry throughout, with a light breeze. Maximum temperature 21 deg C (70 deg F).

Tonight:
Staying cloudy and dry for most, although rain could affect eastern areas through the evening and overnight and the north may receive patchy drizzle around dawn. Minimum temperature 9 deg C (48 deg F).

Saturday:
A day of fair-weather cloud, sunny spells and a few light showers. Most of the showers will form in the afternoon over Cumbria. Rain moving in from the south overnight. Maximum temperature 22 deg C (72 deg F).

Outlook for Sunday to Tuesday:
Rain is likely throughout Sunday, some of which heavy and possibly thundery. Cloudy with showers on Monday, heaviest in the south. Drier on Tuesday, with some sunny spells.
